AIR SYSTEMS, With diverse production capabilities, offers under one roof various internals for all popular types of Electrostatic Precipitators. We not only manufacture collecting and Discharge Electrodes of different designs, profiles and shapes but also supply Rapping Components, Access Doors, Grounding Switches, Insulators, Gas Distribution Screens and other fast wearing items

387 Collecting Electrode

735 Collecting Electrode

We manufacture collecting electrodes of different shapes in our continuous roll forming line to suit popular makes of Precipitator. Our forming tools ensure that all collecting electrodes are straight & are also of uniform profile. As the height of these electrodes vary from site to site, we supply them in required lengths as per customer's specifications.
